ABOUT WILLIAM "TINY" LAWSON

William "Tiny" Lawson is a Marine Corps veteran and the founder of the Warriors Project, a faith-based recovery community he founded in 2010. A former corrections inmate who later returned to the same facility as a corrections officer, he brings firsthand experience to conversations about faith, recovery, accountability, second chances, and human dignity. Today he shares that message with churches, recovery organizations, reentry programs, and communities — and asks every audience one question: "How many broken people will you sit with today?"
